

The No Call list as it's working in Wisconsin is a positive and "quality of life" improvement for Wisconsin residents. We now finally have a law that is available for sign-up BY CHOICE. This law directly serves the constituents and costs little. If the law is watered down to include various groups, it loses its purpose and effectiveness. Don't ruin a good thing that the people of Wisconsin have chosen to enjoy. Consider an option for people when they renew to the list levels of acceptable calls. I, for one, would continue to choose to opt-out of all solicitations.
